

## **EXHIBIT 4**

**From:** Martin, Lance <lancemartin@chubb.com>  
**Sent:** Thursday, January 28, 2016 10:03 AM  
**To:** Pandey, Ramesh <rapandey@chubb.com>  
**Subject:** ChEAR application and technology stack summary  
**Attach:** Legacy Chubb Application Summary\_January 2016.xlsx

---

Ramesh –

Spreadsheet tabs are sorted by owning unit, business application and IT application. I've also embedded explanatory comments in row 1 for several columns.

Tab 1 covers the application summary with some extra data on whether the application is "in house", "hosted" or "commercial product" that I had originally put together for the valuation analysis late last year.

Tab 2 identifies which applications are hosted or vendor developed / purchased (along with the vendor names).

Tab 3 is the technology mapping breakout for each application in ChEAR.

If you have questions or need additional or different information, please let me know.

Thanks,

**CHUBB**

**Lance Martin**  
Sr. Process Manager, Chubb Personal Risk Services

15 Mountain View Road, Warren, NJ 07059, USA
